Brothers and Sisters,

At approximately 0515 on Sunday November 20th, South King Fire & Rescue Engine 66 responded to reports of a rolled over vehicle on Interstate 5, near Federal Way. While the crew of Engine 66 was assessing the scene, the driver of another vehicle lost control due to inclement weather striking brother firefighter Wynn Loiland. Brother Loiland suffered severe head trauma and broken bones to his upper body. He remains unconscious in the intensive care unit at Harborview Medical Center in Seattle.

Brother Loiland is 52 years of age and a 30-year veteran of our fire department, beginning his career on January 5, 1981. His loving wife of 25 years, two boys and loving family continue to wait patiently by his side.

As one could expect from such injuries, the road for Brother Loiland may extend far beyond what we all hope. To aid the family with unexpected expenses, Local 2024 has established a fund for the Brother Loiland through the South King Firefighters Foundation. Please note "Wynn Loiland Fund" when donating to ensure funds are properly earmarked.

South King Firefighters Foundation
31617 1st Ave South
Federal Way, WA 98003

UnionCentrics has also generously provided an avenue for online donations and for friends and family to remain updated on Wynn's condition. For more information, please visit www.iaff2024.org.

Please keep Brother Loiland and his family in your thoughts and prayers.

Fraternally,

Ryan Herrera
President
