

The PIIERS program allows you, the user, to run customizable reports.

This can be used to track injuries and exposures to share with your doctor. Use database to show changes over certain time frames or over your complete career.

The PIIERS program is provided free to members of the WSCFF and the IAFF 7th District.

The service is also available to non-members for a \$5.00 annual fee.

Document your exposures

It's no secret that your profession puts you in environments filled with known chemicals, carcinogens, toxins and diseases. As a result it has been proven that Firefighters are more prone to certain illnesses and cancers than the general population.

As a PIIERS user, you can track all of your exposures to chemicals, smoke, toxins and diseases throughout your career.

Created for you, the worker

The Personal Injury Illness and Exposure Reporting System (PIIERS) was created for you and is designed to follow you throughout your career and into retirement. It is a one-stop place to record your injuries, illnesses and exposures experienced throughout your career. While confidentiality of information must always be safeguarded, PIIERS is more than just a place to store data. It will allow query's to be made and the results downloaded.

Store and protect your information

PIIERS allows you to upload and securely store your medical information for you.

Do you get an annual physical?

Scan and download the results of all of your preventative and wellness exams into the PIIERS Program as part of your complete health history.

Your Information at Your Fingertips

Did you have a work-related injury?

PIIERS allows you to download and store your claim information as part of your complete medical history.

Were you exposed to blood borne or airborne diseases?

Track your EMS exposures throughout your career. Upload your department exposure reporting form to keep all your information in one place.

Track your toxic and chemical exposures.

Use PIIERS to document your exposures to smoke, chemicals and toxins

Data Collection

PIIERS allows for the generation of reports

As a user, you will be able to run a customizable report on your information.

Provides the ability to run reports on non-protected and generic information to track trends and to develop health education or prevention materials. Can also be used for legislative and safe work-place initiatives.
