ABOUT THE LECTURE SERIES

Occupational and environmental health exposures cause thousands of illnesses and injuries each year. This lecture series addresses the evaluation, treatment, and prevention of disease and injuries related to environmental and occupational exposures encountered by physicians and their colleagues in local, regional, and international settings.

At this venue for education and professional networking, join us as we explore:

- Current issues and emerging trends in occupational and environmental medicine
- Practical applications of new scientific discoveries
- Best practices in occupational and environmental medicine

The Occupational and Environmental Medicine Grand Rounds Lecture Series is offered virtually via live, two-way video conferencing technology.

Planning Committee:

Debra Cherry, MD, MS
June Spector, MD, MPH
